## SA LEGACY VISION LAUNCH EVENT & NETWORK MEETING

Some pictures of this special occasion that introduced Michael Lee as an alliance partner of BBN-SHEPSA. This event also marked the beginning of BBN's marketing plan to grow our respective organisations through special events as well as a number of plans that will work to benefit both business and our communities in growing the SHEP South Africa legacy vision for our children and posterity.

Venue: Mitsubishi Motors, Paarden Eiland

Michael Lee, futurist and CEO of the Institute of Futurology recently launched his book "Knowing Our Future". We must become 'future wise and future smart' in a fast changing and challenging world. In this respect Michael's book looks ahead so that we become informed and motivated to take the smart steps necessary for future growth and success.
