

**Introducing the FutureFinder™  
System to the World**

**“Own your Future”**

**Is time your worst enemy or  
your best friend?**

**Learn to harness the power of  
the future, to connect to your  
destiny and to manage your  
life better!**

**Want to become more  
systematic and proactive as a  
person to help you direct the  
rest of your life?**

**Now a system has been  
invented which can help you do  
that.**

FutureFinder™ is based on the idea of progression and uses thirty future factors which influence the direction of the future. The purpose of the system is to monitor and manage the progress of individuals and organisations towards a positive, or optimal, future. It tests how these future factors, arranged on a scale of importance according to the role they play in driving and determining the future, stack up in their total potential impact. The results of this self-assessment are mapped map out on a ResultGraph to show you, or your organisation, where you are in relation to an optimal future. Then the system provides an opportunity to record new goals to accelerate your progress. The objective behind the scoring procedure is to confront and evaluate the current historical trajectory honestly with a view to making changes where it matters most in order to prevent future deterioration. The thirty factors of FutureFinder™ provide a strong foundation for the future.

While a FutureFinder™ license or subscription remains valid, the survey may be completed as many times as you like to check on your personal progression into the future and to monitor the attainment of your goals!

Individuals and organisations determine their future within the world they live in with all its multiple influences. What FutureFinder™ can do is highlight whether or not you're on track for a positive or negative future. The results of a FutureFinder™ scoring will identify areas where an individual is progressing and others where he/she is falling short in building a strong and good future. FutureFinder™ will enable individuals and organisations to plan their progress towards greater order and purpose.

Price of an annual subscription to  
FutureFinder™

**Individuals- \$50 USD**

**Organisations - \$350 USD**

Simply go to [www.futurology.co.za](http://www.futurology.co.za) and click on the FutureFinder System tab to register!

PayPal accepted for international payments.

**Institute of Futurology**  
**[www.futurology.co.za](http://www.futurology.co.za)**

Founded in 2012, the institute is a non-profit, international think tank dedicated to the advancement of foreknowledge, foresight and prescience - the capacity to know about the future of the world before it gets here. Contrary to received wisdom that the future is non-factual and unknowable, IF has developed a model for producing social foreknowledge based on an understanding of time, probability theory, the laws of nature and of history.

**WORLDWIDE  
APPLICATIONS**
